

TESTS DON'T LIE.

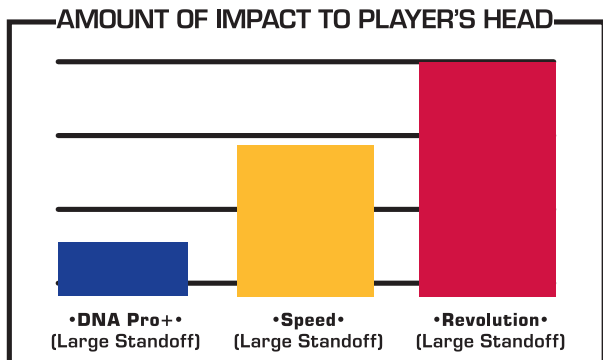

In head-to-head testing, TPU helmets from Schutt Sports performed better than the competition.

ION 4D BETTER

42%

The Xenith X1 absorbs 42% less impact than the ION 4D

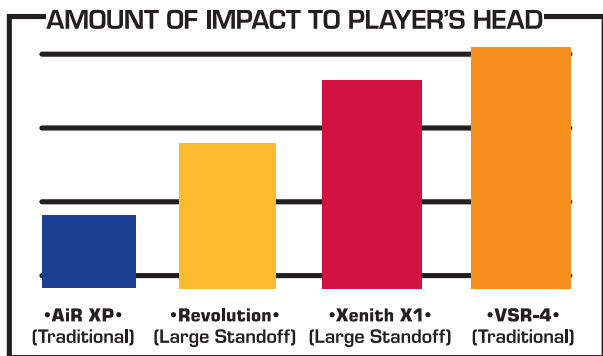

DNA Pro+ BETTER

24% 44%

The Speed absorbs 24% less impact than the DNA Pro+

The Revolution absorbs 44% less impact than the DNA Pro+

AiR XP BETTER

28% 12% 23%

The VSR-4 absorbs 28% less impact than the AiR XP

The Revolution absorbs 12% less impact than the AiR XP

The Xenith X1 absorbs 23% less impact than the AiR XP

Helmets were tested at 105° at an independent research lab under identical conditions.
Graph shows amount of impact hitting a player's head when wearing each of the tested helmets.

Choose the best/save the most the Schutt Ion 40 leads the market in innovation and protection.

Make your investment count!

Schutt Ion 4D \$280.00 ÷ 15 years = \$18.67

Riddell Revolution \$280.00 ÷ 10 years = \$28.00

Simple Ammortization Combined with Protection Makes Sense!!
